

## EU EARLY ALERT - PESTICIDE REVIEW

March 5, 2021

The information presented in this document provides interested stakeholders with advance notice of active ingredients under review for renewal of approval in the EU and highlights which substances that have **expired**, are expected to **expire**, may have **restricted renewal** or **non-renewal of approval**. The green arrows reflect where a substance is in the EU review process as of **February 28, 2021**.

In the European Union active ingredients must be reviewed every 10-15 years. The review process takes three or more years to complete. Registrants must submit an application for renewal no later than thirty-six months prior to the expiration date. The figure below highlights the general timeline between the main steps of the process. During these reviews, substances are checked against EU cut off criteria. Triggering the cut off criteria is likely to result in the removal of the pesticide from use in the EU. It can also result in the elimination of the associated MRLs. These reviews are separate and different from the ongoing MRL-specific reviews that are occurring simultaneously (Article 12 Reviews). MRL-specific reviews are notified on a rolling basis.

### APPLICATION FOR RENEWAL – EXPECTED TO EXPIRE

Chemical companies must support the review of their substance. If they do not, the active ingredient will automatically expire in the EU on a set date. For the substances below, registrants **have not submitted the application** for renewal of approval or **have withdrawn the application** and **approval will expire**. Corresponding MRLs may be affected. The substance’s expiration date is outlined in parentheses ( ).

- **Fenbuconazole** (April 30, 2021)
- **Carboxin** (May 31, 2021)
- **Cyproconazole** (May 31, 2021)
- **Etridiazole** (May 31, 2021)
- **Myclobutanil** (May 31, 2021)
- **Oryzalin** (May 31, 2021)

### APPLICATION FOR RENEWAL - EXPIRED (March 2020 – February 2021)

Substances in this section **have already expired** due to **non-submission of application for renewal** or **withdrawal of application for renewal**. This list includes substances that have expired in the last year. Corresponding MRLs may be affected. Expiration date is outlined in parentheses ( ).

- **Triflumizole** (June 30, 2020)
- **Spirodiclofen** (July 31, 2020)
- **Thiophanate-methyl** (October 31, 2020)
- **Imidacloprid** (December 1, 2020)
- **Zeta cypermethrin** (December 1, 2020)

## EU EARLY ALERT - PESTICIDE REVIEW

March 5, 2021

### UP NEXT FOR REVIEW (Up to August 2021)

Under the EU pesticide review program, the substances listed in this section are scheduled to go through the periodic review process. They have **upcoming deadlines for the submission of the application for renewal.**

- **Prosulfuron** (July 31, 2021)
- **Spirotetramat** (July 31, 2021)
- **Tembotrione** (July 31, 2021)
- **Zinc phosphide** (July 31, 2021)
- **6-Benzyladenineb** (August 31, 2021)
- **Dodine** (August 31, 2021)
- **Fluometuron** (August 31, 2021)
- **Hexythiazox** (August 31, 2021)
- **Isoxaben** (August 31, 2021)
- **Lime sulfur** (August 31, 2021)
- **Pendimethalin** (August 31, 2021)
- **Tau-Fluvalinate** (August 31, 2021)
- **Tebufenozide** (August 31, 2021)

### STANDING COMMITTEE ON PLANTS, ANIMALS, FOOD AND FEED (PAFF)

Based on the European Food Safety Authority (EFSA) conclusions, the European Commission has proposed the substances in this section for **non-renewal** or **restricted renewal**. They are now **under consideration** by the Standing Committee on Plants, Animals, Food and Feed (PAFF) as available in the December 3-4, 2020, and January 25-26, 2021, meeting agendas. Draft proposals may be notified to the World Trade Organization (WTO) prior to the Committee's final vote. In these cases, substances are listed below and in the next section.

- **Abamectin**
- **Alpha-Cypermethrin**
- **Benfluralin**
- **Fenpyrazamine**
- **Indoxacarb**
- **Prosulfuron**
- **Sulfoxaflor**

### WTO NOTIFICATION (March 2020 – February 2021)

The substances in this section have been notified to the **WTO as proposed for non-renewal** or **restricted renewal**. After the comment period, the Commission will analyze the comments received and publish the Implementing Regulation. Notification date is outlined in parentheses (). Please refer to the draft Commission Regulation for the full explanation of the justification for the restricted or non-renewal of approval.

**Benfluralin:** proposed non-renewal based on long-term risk to birds and mammals including the risk from secondary poisoning of earthworm eating birds and mammals, as well as the genotoxic potential of an impurity could not be excluded. (May 6, 2020)

WTO NOTIFICATION *(Continued)*

**Alpha-cypermethrin:** proposed to withdraw the approval as applicant did not submit required confirmatory data. (January 22, 2021)

**Fenpyrazamine:** proposed to restrict products with concentration of hydrazine higher than 0.0001%. (September 8, 2020)

## COMMISSION IMPLEMENTING REGULATION (March 2020 – February 2021)

**The Commission has published the final decision on non-renewal or restricted renewal in the EU** for the substances in this section. EU MRLs may be subject to change as a result. Implementing regulation publication date is outlined in parentheses (.). Please refer to the published Commission Regulation for the full explanation of the justification for the restricted or non-renewal of approval.

**Beta-cyfluthrin:** non-renewal based on unacceptable risk to workers, high risk to residents, non-target arthropods, and to aquatic organisms. (June 30, 2020)

**Bromoxynil:** non-renewal based on suggested classification as toxic for reproduction category 1B. (September 14, 2020)

**Mancozeb:** non-renewal based on classification as toxic for reproduction category 1B. (December 15, 2020)

**Thiophanate-methyl:** non-renewal due to the withdraw of application for the renewal of approval. (October 15, 2020)

**Metalaxyl-M:** restricted renewal limits seeds treated with metalaxyl-M to only be grown in greenhouses. (May 5, 2020)

**Etoxazole:** renewal as a candidate for substitution and restricted to use on ornamental plants in permanent greenhouses. (December 16, 2020)

**MRL CHANGES** (March 2020 – February 2021)

As a **result of non-renewal or expiration of approval**, restrictive MRLs have either been proposed (WTO notification) or implemented (Commission Regulation) for the substances below.

WTO Notification:Implementing Regulation:

- **Chlorpyrifos:** Commission Regulation 2020/1085 on July 24, 2020. *Effective date: November 13, 2020*
- **Chlorpyrifos-methyl:** Commission Regulation 2020/1085 on July 24, 2020. *Effective date: November 13, 2020*
- **Chlorothalonil:** Commission Regulation 2021/155 on February 10, 2021. *Effective date: September 2, 2021*
- **Chlorpropham:** Commission Regulation 2021/155 on February 10, 2021. *Effective date: September 2, 2021*
- **Dimethoate:** Commission Regulation 2021/155 on February 10, 2021. *Effective date: September 2, 2021*
- **Ethoprop:** Commission Regulation 2021/155 on February 10, 2021. *Effective date: September 2, 2021*
- **Fenamidone:** Commission Regulation 2021/155 on February 10, 2021. *Effective date: September 2, 2021*
- **Propiconazole:** Commission Regulation 2021/155 on February 10, 2021. *Effective date: September 2, 2021*
- **Pymetrozine:** Commission Regulation 2021/155 on February 10, 2021. *Effective date: September 2, 2021*
